

# Burke would bring busted budget, higher taxes

Wisconsin 3:55 p.m. CDT September 8, 2014

If there is any doubt in anyone's mind where this state is headed with a win by Mary Burke, all you have to do is look at her top 10 contributors. Mary dumped a lot of her own money in her campaign (the main reason she was chosen by the Wisconsin Democrats, not job experience) and eight of the other nine top contributors are unions or teachers associations.

Forget the money school districts have saved with Act 10 by being able to purchase health insurance from other than WEA Trust. Forget the money municipalities have saved by asking public sector employees to contribute to their pensions and insurance *and* forget the lower property and income taxes that saved the average family \$520 this past year. We will be headed for another busted budget and higher taxes with Burke.

I find it interesting that the largest contributors to Gov. Walker's campaign are the Republican Party of Wisconsin – makes sense to me – and, even though they are #10, single donations from 145 citizens; the people who run businesses, hire workers and pay the taxes and know that with a Walker win in November, our state will continue to go in the *right* direction. We do not want four years of the Doyle fiscal mentality pushed on us by Mary Burke and her union sycophants.
